Colorful and charming, Brazzaville is an endearing introduction to the culture and cuisine of the Republic of the Congo. Brazzaville is a safe, welcoming, and enjoyable place for Kamba guests to explore before or after their journey to the Congo Basin. Evidence of the French colonial period can be found in Brazzaville's architecture, broad boulevards, and the Corniche, a riverside embankment lined with restaurants and cafés that look across the Congo River to Kinshasa, capital of the Democratic Republic of the Congo. (Fun fact: This is the only place in the world where two national capitals face each other across a river.)

We recommend that guests spend two nights in Brazzaville to experience its atmosphere and spirit and discover its restaurants, markets, historic sites, and distinctive culture. Kamba offers various guided tours; guests can also avail themselves of local "green taxis" to explore on their own.

Most of our Journeys include a half-day tour of Brazzaville that takes in the city's highlights, including the Modernist masterpiece St. Anne's Basilica; Poto-Poto Market, an excellent source for exuberantly patterned textiles; the Marché Plateau Ville, where local artisans sell masks and carvings; and a drive over the iconic Independence Bridge to La Corniche, overlooking the Congo River.

Make time to sample Congolese cuisine, which blends French techniques and African flavors. Highlights include the elegant waterfront destination Mami Wata; La Mandarine, a delicious Lebanese French bakery and café; and Glacy, which specializes in ice cream that highlights the flavors of the jungle.

One don't-miss highlight is an experience with the Sapeurs, a fascinating subculture of street fashion icons whose expressive, dandyish outfits are considered part of Congolese cultural heritage. Sapeur tours must be booked in advance.
