The lodge is luxuriously appointed with all the mod cons one would expect from a Sopa styled lodge in the bush. The bedrooms are spacious, the large pool has wonderful views and there's evening wildlife films and CNN to enjoy during the down-time. All this ensures that your stay will be blissfully comfortable.

### **Lake Nakuru Lodge**

Lake Nakuru Lodge is situated in the heart of one of Kenya's most densely populated wetland National Parks, (Ramsar site) only two leisurely hours' drive from Nairobi, through beautiful forested uplands and passing a series of lakes. On the outskirts of the bustling market town of Nakuru lies a truly remarkable national park which has achieved international fame. Both black and white rhino are being given a new lease of life in this 188 sq km, fully-fenced park - and they are carefully protected. The present rhino population is over 50 and continuing to multiply. The Rothschilds giraffe is another rarity and the park has its fair share of buffalo, leopard, zebra, eland, waterbuck and lion. Lake Nakuru Lodge is in the south-east ecological niche of the park, with commanding views of the lake and the flamingos for which it is justly famous. Lush gardens surround the lodge and cottages. There is a good programme of activities and evening entertainment.

### **Day 5 - Lake Nakuru - Amboseli National Park**

After an early breakfast you will leave Rift Valley behind, you continue towards Nairobi and collect picnic lunch from Nairobi and then head south towards Amboseli. Enjoy a picnic lunch with an afternoon game drive in the park enroute to the Amboseli Sopa Lodge, arriving in the evening.

All rooms are en suite, with walk-in shower, lavatory, wash basin and shaving socket – they're all modern, spacious and comfortable. ### **Lake Manyara Serena Lodge**

It would be difficult to find a more dramatic setting than the Lake Manyara Serena Lodge. Situated at the edge of an escarpment, this deluxe lodge overlooks both the Great Rift Valley, which formed millions of years ago, and the beautiful soda lake of Manyara with its lavish supply of bird life. The birds themselves have provided the inspiration for the lodge's architecture. Graceful, curving and free flowing, it is built in the local circular style and exudes an atmosphere of peacefulness where man and nature co-exist. From the patterns in the reception area resembling bird migration paths, to the soft geometric designs in the bedrooms, there is barely a single straight line in its design. The bar and restaurant offer guests both indoor and outdoor seating at each meal. Sumptuous menus, buffets and barbecues are served to guests alongside authentic African dishes.

### **Day 8 - Lake Manyara - Serengeti**

After breakfast enter your safari vehicle and spend the morning exploring and driving through Lake Manyara National Park. About midday return to the lodge for lunch and then depart for Serengeti National Park with some game viewing en route arriving at your lodge as the sun begins to set.

Year round water and the acacia woodland in this area create an ideal environment for the wide variety of wildlife seen in the immediate vicinity of the lodge. Looking out over the seemingly endless Serengeti plains, this hill side lodge is a tranquil oasis set in thousands of square kilometres of Serengeti National Park. The lodge can accommodate around 170 guests in 79 suites, each enjoying wall-to-wall carpeting, a private lounge with a mini bar, a bedroom with two queen size beds and ample room for a third guest. The lodge is tastefully decorated, spacious and all the bedrooms are modern, comfortable and equipped with everything one would expect from a hotel of this class. With an altitude of 2,375 metres, the lodge experiences cool and even cold weather, especially during the winter months of June and July when temperatures can get as low as 10' C. However, guests enjoy sunshine during most of the year and must take care when sunbathing by the pool due to the altitude. The food and service here is stylish with meals being a massif collection of delicious international and Tanzanian dishes.

### **Day 11 - Ngorongoro Crater**

A highlight awaits you this morning as you depart to explore what is commonly referred to as the World's largest natural wildlife zoo. After breakfast, you descend with a picnic lunch through the early morning mists and 2,000 feet into the crater. Ngorongoro Crater is the World's largest intact volcanic caldera. Due to its size and diversity, the crater floor is comprised of several distinct areas, ranging from forest, swamps, lakes and springs, to open grassland and some sandy dunes.
